VDOT BRISTOL'S WEEKLY TRAFFIC ALERT: June 15 - 21, 2009

BRISTOL, Va. – In an effort to keep motorists informed, the Virginia Department of Transportation (VDOT) provides weekly information about highway construction and maintenance projects in southwestern Virginia. When traveling through highway work zones, use caution and be alert to changes in traffic patterns and slow-moving or stopped traffic. **Motorists face a maximum fine of \$500 for speeding in highway work zones.** Law enforcement officers monitor highway work zones throughout the region.

INTERSTATE PROJECTS

*****Interstate 81 northbound at Exit 17 – ramp closure:** Due to repairs to a traffic signal sensor in the roadway at Exit 17 in Abingdon, the northbound Interstate 81 off-ramp at Exit 17 will be closed overnight Sunday night into Monday morning (June 15). The closure will begin at midnight and end by 6 a.m. Monday morning. Motorists should use caution in this area and plan alternate routes. (Completion: June 15, 2009)

Interstate 81 – bridges repairs in Marion area: Be alert to northbound lane closures in the Marion area due to bridge repairs at mile markers 43 and 47. (Completion: late June 2009)

Interstate 81 Safety Improvements – Wythe County: Be alert to periodic lane closures due to extension of the Interstate 81 Exit 77 northbound deceleration lanes of the southbound and northbound ramps. Also be alert to the possibility of lane closures due to the extension of the Interstate 81 Exit 80 right turn lanes of the southbound and northbound ramps. Use caution in this area while safety improvements are underway. (Completion: September 1, 2009)

Interstate 81 southbound in Smyth County – guardrail: Be alert to the possibility of lane closures on southbound Interstate 81 near mile marker 48 in Smyth County due to the installation of guardrail and rumble strips. Use caution in this area and anticipate delays. (Completion: mid-June 2009)

*****Interstate 77 maintenance activities:** Lane closures are scheduled along the following areas of Interstate 77 this week due to:

- Pavement marking repairs southbound near mile marker 22 in Carroll County.
- Bridge deck repairs southbound near Exit 66 in Bland County.
- Pothole patching along the entire I-77 corridor in Virginia.

*****Interstate 81 maintenance activities:** Lane closures are scheduled along the following areas of Interstate 81 this week due to:

- Mowing northbound between mile marker 20 in Washington County and the Wythe/Pulaski county line.
- Slope repairs north and southbound near Exit 67 in Wythe County.
- Guardrail repairs northbound near Exit 14 in Abingdon.
- Pothole patching northbound in Washington, Smyth and Wythe counties.
- Bridge deck repairs northbound near mile marker 15 in Abingdon and mile marker 53 in Smyth County.
- Bridge deck repairs southbound near mile marker 16 in Abingdon.

Interstate 77 in Carroll County – bridge repairs: Work has begun to rehabilitate the Interstate 77 bridges near mile marker 23 in the Poplar Camp area of Carroll County. Be alert to changing traffic patterns in the work zone. The speed limit in the work zone is 55 mph.

PRIMARY HIGHWAYS AND HIGH TRAFFIC SECONDARY ROADS:

*****Pavement Markings - mobile, rolling work zones:** Motorists should be alert to a caravan of slow-moving trucks applying pavement markings on highways at various locations **in Grundy area of Buchanan County and the Haysi area of Dickenson County.**

*****CSX Railroad – track repairs:** Due to railroad crossing repairs by CSX Railroad, be alert to the possibility of temporary closures during daylight hours on the following routes June 29 through July 6:

- Route 63 in the Clinchco area of Dickenson County.
- Route 715 in the Irvinton area of Dickenson County.
- Route 627 in the Dante area of Russell County
- Routes 713 and 632 in Scott County.
- Periodic lane closures on Route 23 in the Speers Ferry area of Scott County due to repairs to the crossing about the roadway.

Signs will be posted on each route the day before each closure. It is anticipated that repairs will take one day at each location. (Completion: July 6, 2009)

Buchanan County

*****Buchanan County- Water Line Installation:** Work to install water lines in the following areas of Buchanan County will restrict traffic to one lane during daylight hours:

Route 601 – Convict Hollow (Completion: summer 2009)

Route 655 – Lynn Camp (Completion: September 2009)

Route 460 Grundy – Phases I and II: Be alert to periodic lane closures on Route 460 between Route 615 and the former VDOT Coalfields Expressway office due to the installation of barrier rail that will separate traffic from building demolition work. Be alert to closed sections of sidewalk near the former Advance Auto, Coalfields Expressway and Richardson Apartments due to demolition work.

Motorists should also be alert to the possibility of periodic lane closures and delays on Route 460 in downtown Grundy due to the reconstruction of Route 460 and the U.S. Corp of Engineers flood proofing activities at the Main Street bridge. The Main Street bridge is closed and there are no through traffic restrictions downtown. Motorists will have access from Route 460 to Main Street and from Route 83 to Walnut Street.

Use caution in these areas and be alert to the possibility flaggers directing traffic. The posted speed limit is 25 mph in the work zone. Motorists should use caution and pay close attention to signs directing traffic through the work zone. (Phase I Completion: summer 2009; Phase II Completion: mid-November 2011)

Shuttle Service during Route 460 relocation project in downtown Grundy: A complimentary downtown Grundy shuttle service continues to be offered during the Route 460 relocation project. The service operates from 7:30 a.m. to 5:30 p.m. Monday through Thursday and 7:30 a.m. until 6:30 p.m. Fridays.

There are temporary parking lots for the shuttle service at Grundy Church of Christ and the town's redevelopment site. The shuttle will stop at each lot and at the corner of Walnut and Main Streets every 15-20 minutes. Two temporary shelters for shuttle patrons to use during inclement weather are located adjacent to the Grundy Church of Christ and near the redevelopment site.

Dickenson County

Route 80 – water line installation: Work to install water lines on Route 80 in Dickenson County is underway. The project is located between the intersection of Route 682 and the Dickenson County line. Use caution in this area. (Completion: late summer 2009)

*****Route 611 widening:** Work is underway to widen Route 611 in Dickenson County, just north of Clintwood. Drivers should expect delays in the area and watch for flaggers controlling traffic on weekdays during daylight hours. (Completion: late July 2009)

Water line installation – various routes: Beginning in April and extending through summer 2010, be alert to periodic lane closures due to water line installation work on the following routes in Dickenson County:

Route 63 – Big Ridge Road

Route 637 – Rose Ridge and D.C. Caney Ridge Road

Route 638 – Hill Ridge

Route 614 – Flannagan Dam Road

Route 648 – Rachel’s Chapel Road

Route 646 – Hamilton Town Road

Route 771 – Copperhead Road

Route 709 – Tan Trough Branch

Route 818 – Patsy Lane

Routes 679 – Nancy Hollow

Route 760.

Grayson County

*****Route 753:** A section of Route 753 in Grayson County has been closed due to repairs to the bridge over White Top Creek. The closure is located between Routes 754 and 771 in the White Top area. Use caution in this area and pay close attention to detour signs. (Completion: July 31, 2009)

Route 58 bridge repairs: Due to bridge repairs, traffic is being controlled by signals on the Route 58 bridge over Peach Bottom Creek located just east of Independence in Grayson County. The bridge is restricted to one 14-foot-wide lane during repairs. Use caution in this area. (Completion: May 2010)

Route 842 – Twin Pond Road: Be alert to the possibility of lane closures due to improvements along a section of Route 842 – Twin Pond Road in the Fries area. (Completion: December 2009)

Route 748 – Laurel Creek Road: Be alert to the possibility of lane closures due to improvements along a section of Route 748 – Laurel Creek Road in the Rugby area. (Completion: December 2009)

Lee County

Alternate Route 58: Due to a bridge reconstruction project, signals are controlling one 12-foot-wide lane across the Alternate Route 58 bridge over the North Powell River in Pennington Gap. Use caution in this area and pay close attention to signs in the work zone. (Completion: September 1, 2009)

Russell County

Route 82 – Cleveland Road: Be alert to the possibility of delays on Route 82 – Cleveland Road in Russell County due to curve widening work. (Completion: early July 2009)

Route 618: A section of Route 618 in the Rabbit Ridge section of Russell County has been closed to allow Paramount Coal Company Virginia LLC to perform surface mine operations in the area. The 0.4-mile section begins about one-mile east of Route 600 and extends eastward. When the mining operations are complete, Paramount Coal Company Virginia LLC will rebuild the closed section of Route 618, eliminating steep grades and sharp curves along the existing section of Route 618. (Completion: spring 2009)

Russell County- Water Line Installation: Work to install water lines is underway on:

- Route 19 between Lebanon and Hansonville in Russell County. Motorists may also experience delays on Routes 657 and 660 due to the project. (Completion: summer 2009)
- Route 657 – Green Valley Road (Completion: November 2009)

Use caution and be alert to traffic restrictions during daylight hours.

Scott County

Route 684 - Cowans Creek Road: The project to reconstruct Route 684 – Cowans Creek Road will resume in the summer months. (Completion: spring 2009)

Smyth County

Route 622 – Nick’s Creek Road: Due to a project to widen and replace a bridge on Route 622 – Nick’s Creek Road in Smyth County, a section of the route is closed to traffic. Motorists can detour around the project by using Kelly Hill Road, Pierce Road, Big Prater Road and Route 16. Motorists are advised to use caution in this area and pay close attention to detour signs. (Completion: December 1, 2009)

Route 11 at Exit 39: Signals are controlling one lane traffic across the Route 11 bridge at Exit 39 in Smyth County due to a bridge deck replacement. The project will cause periodic, temporary closures along Interstate 81. Use caution in this area. (Completion: October 1, 2009)

Tazewell County

Route 19/460 bridge project: Two-way traffic through the Route 19/460 bridge work zone has been shifted to the southbound lanes. Use caution and slow down through the work zone while motorists become familiar with the new traffic pattern. The Lake Street entrance to Route 19/460 is temporarily detoured onto Post Street due to the construction. Additionally, the entrance to Quarry Road will be temporarily detoured through the Miner's Oil entrance. There will be a 12-foot-width restriction in the work zone. (Completion: October 2009)

Washington County

*****Route 634 – Allison Gap Road:** Bridge repairs are underway on Route 634 - Allison Gap Road in Washington County. In the coming weeks, the road will be closed between Route 91 and the bridge site in an effort to expedite the project. Motorist can detour around the project by using Route 91 north to Route 633 – Upper Poore Valley Road to Route 613. The detour is approximately 7.5 miles. (Completion: June 2009)

Route 75 bridge over Spring Creek: Signals are controlling one 11-foot-wide lane of traffic across the Route 75 bridge over Spring Creek in Washington County due to a bridge deck replacement project. The bridge is located about a mile north of Tennessee. Use caution in this area and allow extra travel time. (Completion: June 2009)

Wise County

Route 78 bridge: Traffic crossing the Route 78 bridge over Callahan Creek at Appalachia is being controlled by signals. The bridge has been reduced to one 12-foot-lane while the superstructure is being replaced. (Completion: November 2009)

Wythe County

Route 100 bridge and Route 637 – Greenbriar Road: Due to bridge repairs, the Route 100 bridge over Little Reed Island Creek has been restricted to one 12-foot-wide lane and traffic signals are controlling traffic on both ends of the bridge. Route 637 – Greenbriar Road in Wythe County has been closed due to the bridge project. Route 100 can be accessed from Route 637 about 1.5-miles south of the bridge project (Completion: May 2010)

Route 680 – bridge repairs: Signals are controlling one-lane traffic across the Route 680 – Black Lick Road Bridge over Stony Creek in Wythe County due to bridge repairs. There is a 10-foot width restriction on the bridge during the repairs. The bridge is located 0.25 miles south of Route 52. (Completion: August 31, 2009)

Route 613 – Locust Hill Road: Be alert to the possibility of lane closures due to improvements along a section of Route 613 – Locust Hill Road in the Max Meadows area. (Completion: December 2009)

Completed

Route 16 – bridge repairs: Replacement of the bridge deck on Route 16 at Sugar Grove has been completed.
